

**Girl Scouts of NYPENN Pathways, Inc.
Issue/Proposed Solution Form**

From time to time, adult volunteers identify major issues of concern in Girl Scout program activities or council procedures, and in many instances have suggestions for solutions. Any such concern, with or without potential solutions, should be submitted to the Strategic Learning Committee. This committee will review the issue and determine whether it should be presented to the board of directors, or to the appropriate staff team for consideration.

The proposed issue should be thoroughly discussed at a service unit meeting. In addition, the endorsement of two other service units must be secured.

- A. State the issue and any background information that might be helpful in understanding the issue.

- B. Identify any proposed solutions to address the issue:

1.

2.

3.

- C. How does this solution conform to Girl Scout ideals, program standards and safety regulations? (See *Safety-Wise* and *Blue Book of Basic Documents*).

- D. If adopted, what local or national policy changes, if any, would be necessary?

- E. What long-range effects would it have on Girl Scout program?

F. What are the financial implications of the proposed solutions?

Submitted By

Service Unit _____

Number of Adults Present at Meeting _____

A majority of the adults in our service unit voted to submit this issue/solution.

Service Unit Manager's Signature Date
